

SADAM SHAH

FULL STACK WEB DEVELOPER

Islamabad, Pakistan | +92 336 2122015 | Sadamshah083@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Web Developer with 1+ years of experience building responsive websites, CRM platforms, admin portals, and data-driven applications. Proficient in React.js, Next.js, TypeScript, Node.js, PHP/Laravel, Python, REST APIs, SQL, and MongoDB, with practical experience in backend architecture, role-based security, real-time WebSockets, automation, machine-learning integration, and application performance optimization.

PROFESSIONAL EXPERIENCE

Full Stack Web Developer

Dec 2025 - Apr 2026

Marifahsol Software House | Islamabad, Pakistan

Promoted after completing a Full Stack Web Developer Internship (Sep 2025 - Dec 2025).

- Developed responsive web applications using React.js, Next.js, TypeScript, Tailwind CSS, Bootstrap, and Material UI.
- Built backend services and integrations with Node.js, Express.js, PHP, Laravel, REST APIs, MySQL, SQL, and MongoDB.
- Delivered CRM, dashboard, user-portal, authentication, role-permission, reporting, and operational workflow modules.
- Implemented WebSockets, webhooks, third-party APIs, JWT-protected routes, Context API/Redux state management, and database workflows.
- Created Python automation for scraping, data cleaning, deduplication, Excel/CSV processing, database insertion, debugging, and performance optimization.

Next.js Programmer

Dec 2024 - Aug 2025

Precise Technology

- Developed reusable Next.js and React components, responsive layouts, forms, navigation, and API-connected interfaces.
- Integrated frontend features with backend services while supporting debugging, browser compatibility, production maintenance, and performance optimization.
- Collaborated through internship and employment phases with dependable delivery, rapid learning, and strong attention to UI quality.

FULL-STACK DEVELOPMENT PORTFOLIO

Apex One Payments CRM | crm.apexonepayments.com

- Developed CRM workflows for lead import, assignment, click-to-call operations, dispositions, customer management, role-based dashboards, and reporting.
- Built backend APIs, authentication, database processes, WebSocket-driven updates, dialer integrations, and performance-focused services for reliable real-time operations.

OptiLeads CRM | optileads.marifahlabs.com

- Developed lead, user, and customer workflow modules with dashboards, forms, role-based access, API integrations, and backend database operations.

Carenclean CRM Panel | panel.carencleanss.com

- Built responsive dashboards, data tables, forms, customer views, backend APIs, authentication flows, and frontend-backend integrations.

Care n Clean Website | carencleanss.com

- Developed a responsive service website with modern page sections, contact and booking workflows, backend API integration, server-side validation, SEO improvements, and performance optimization.

House Price Prediction System (Final Year Project)

- Built a React-based prediction interface, prepared and trained a housing dataset, and connected the frontend to a backend inference API that returns estimated house prices from user-provided property features.
- Apex One Payments Platform | [apexonepayments.com](#)
- Developed responsive merchant-services and POS pages with backend-supported lead/contact workflows, product and content modules, server-side validation, API integrations, SEO, and performance optimization.
- DocRev RCM Website | [docrevrcm.com](#)
- Built responsive medical billing, specialty, and location pages; implemented backend appointment/contact processing, content and blog workflows, data validation, API integration, SEO, and speed improvements.
- BaliTech Corporate Platform | [balitech.org](#)
- Developed responsive campaign, careers, gallery, blog, and office sections with backend application/contact handling, content administration, database workflows, and performance optimization.
- Sowa Tool E-commerce Website | [www.sowatool.com](#)
- Implemented responsive e-commerce components and integrated them with server-side catalog, inventory, customer-login, and product workflows while improving compatibility, performance, and SEO.
- Marifahsol Company Website | [marifahsol.com](#)
- Developed responsive SEO-friendly pages and backend-integrated contact/content workflows, improving navigation, consistency, validation, performance, and cross-device usability.
- Precision Tech Corp Website | [precisiontechcorp.com](#)
- Created accessible responsive business pages with backend form/API integration, secure data handling, browser compatibility, performance optimization, and professional presentation.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript ES6+, TypeScript, React.js, Next.js, JSX, SSR/CSR, responsive UI, reusable components, Tailwind CSS, Bootstrap, Material UI
Backend	Node.js, Express.js, PHP, Laravel, Python, REST APIs, server-side development, middleware, background workflows, validation
Databases	MySQL, SQL, MongoDB, NoSQL, schema design, relationships, CRUD, migrations, indexing, query optimization
APIs / Real Time	WebSockets, webhooks, third-party APIs, JSON, event-driven communication, API data flow, workflow automation
Automation / Data / ML	Beautiful Soup, Selenium, Requests, scraping, cleaning, transformation, deduplication, Excel/CSV automation, dataset preprocessing, model integration
Security	JWT, authentication, authorization, role-based access control, protected routes, CORS, input validation, rate limiting
CRM / Admin	Lead and customer management, dashboards, portals, roles and permissions, reporting, import/export, search, filtering, pagination
Tools / Practices	Git, GitHub, Postman, VS Code, npm, Composer, Vercel, browser developer tools, Agile workflows, debugging, performance optimization

EDUCATION

Bachelor of Science in Computer Science2021 - 2025

COMSATS University Islamabad - Abbottabad Campus
